The committee drafted the emergency regulations related to the training, packaging, labeling, and record keeping for such repackaging. Additionally, the committee drafted language for the emergency regulations regarding the allowance in HB 150 to allow a Board-registered crisis stabilization unit to stock Schedule VI controlled substances necessary for the immediate treatment of patients admitted to the crisis stabilization unit. Others present and participating in the discussion were Mary Ann Bergeron, Executive Director of Virginia Association of Community Services Boards, Michael O'Connor, Executive Director of Henrico County Community Service Board, Ken Pritchard, pharmacist with Tidewater CSB, and Susan Hoover and Beth Rafferty with Richmond Behavioral Health Authority. Once the bill has been signed and passed, the draft emergency regulations will be presented to the full Board for adoption at the next regularly scheduled full Board meeting.
